OFFICE OF THE COMPTROLLER, MYSORE GOVERNMENT.

Dated Bangalore, the 20th March *1914.*

FROM
Dewan Bahadur,
J. S. CHAKRAVARTI, ESQ., M. A.,
F. R. A. S., ETC.,
Comptroller to the Government of
His Highness the Maharaja of Mysore.

Med 143-138:3

To

K. R. Srinivasa Iyengar Esq., M.A.,

Secretary to the Government of Mysore,

General and Revenue *Departments.*

SIR,

I have the honor to forward herewith letter No.381 dated 16th March 1914 addressed to you by the Senior Surgeon in Mysore togother with the Proposition Statement received therewith and to state that the statement has been duly verified by this office. THe proposal of the Senior Surgeon is to entertain 3 additional servants (2 surgery coolies at Rs.6/- each and one scavenger at Rs.7/-) at an aggregate cost of Rs.19/- per mensem for the Civil Hospital at Kolar. The financial effect of the proposal will be an addition of Rs.228/- per annum to the permanent recurring expenditure of the State. If the proposition is sanctioned before the close of the current official year, it takes effect only from the next official year as the scurce from which the excess expenditure if any during the current year has to be met has not been pointed out by the Senior Surgeon.

I have the honor to be,
Sir,
Your most obedient servant,

A. Raghavachar

For Comptroller.

Office of Senior Surgeon, Mysore Govt.,

Dated, Bangalore, 14/16-3-1914.

From Rao Bahadur T.V.Arumugam Mudaliar, Esq., M.B.C.M.,
~~P. S. Achyuta Rao, Esquire,~~
Senior Surgeon with the Government of
H. H. the Maharaja of Mysore, Bangalore.

To

K. R. Srinivasa Iyengar, Esq., M.A.,
Secretary to the Government of
H. H. the Maharaja of Mysore, Genl. and Rev. Deptts.,
Bangalore.

through the Comptroller in mysore

Sir,

In forwarding herewith a proposition statement received from the District Medical Officer, Kolar, for increasing the menial strength of the Hospital by 3 servants, I have the honor to recommend his proposal being sanctioned for the reasons given below.-

2. The necessity for the employment of a scavenger was not felt till now owing to the existence of the pit system in the Hospital. This was done away with in the year 1911-12 and latrines adapted to daily conservancy were constructed on the standard plan. It has, therefore, become very necessary to employ a Toti to clean the latrines and to attend to similar work in the wards also. (1)

3. The Hospital building is considerably extended and a larger amount of work is turned out now than in previous years. The statement herein enclosed shows that the number of patients is gradually increasing year by year. The two Surgery Coolies asked for by the District Medical Officer are also necessary to attend to the Male and Female out-patients, as also on the in-patients of the Hospital in the dressing of wounds, etc., In the Chitaldrug and Shimoga District Hos- (2)

SUBJECT.

Forwarding for sanction a proposition Statement showing the menial staff of the District Hospital Kolar

Hospitals there is an extra cooly allowed for this work and each Local Fund Dispensary has a Surgery Cooly attached to it.

4. A copy of the District Medical Officer's letter explaining in detail the grounds for the proposition, is also enclosed for the information of Government.

5. If the increase of establishment asked for is kindly sanctioned, necessary provision may also be kindly made in the budget, which is now before Government.

I have the honor to be,

Sir,

Your most obedient servant,

Senior Surgeon, Mysore Government.

Enclosed 14² -13-3

4

Letter No. 3315/434 dated 10/11-2-1914 from the District Medical Officer, Kolar District, to the Senior Surgeon with the Government of Mysore.

Correspondence commencing with my No. 4937/762 dated 20th April 1912, and ending with your No. 2906 dated 16/17th January 1914, replying that the proposition statement does not commend itself to you etc.,

---

With reference to the above, I have the honor to submit that if the alternative proposition statements do not commend themselves to you as they are, I am ready to submit revised statements on receipt of ~~you~~ further instructions from you on this head as to the details and items of revision &c.,

The three additional menial servants are very necessary for the reasons detailed below,-

i. Scavenger- A scavenger is very necessary because the pit system of latrines that existed up to 1911-12 have been replaced by latrines constructed on the standard plan. Sanitary pans were provided therein in 1908-09 only; these have to be frequently removed when they fill, cleansed and replaced as often as necessary; Coolies & Waterman and Peon who are caste servants refused to do this scavenger's work in the wards and latrines and drains of the hospital, and they cannot be compelled to attend to such duty at all. In the hospital bed-ridden patients with Dysentry, Diarrhoea, incontinence of urine and faeces, &c., have to be admitted & treated as well as practicable and many a time these are paupers with no relations to attend or nurse them. The bed and bedding of such patients get soaked with urine and spoiled with faeces, if they are suffering from involuntary evacuations necessitating constant removal and replacement of bedding and clothing etc., This removal of such clothing or bedding and its washing etc., will not be done by caste servants and there is not a single scavenger appointed all these years to do the work; the Police bring pauper patients for admission at the last stage of their existence and these have to be attended to as long as they live; without a scavenger and necessary coolies this cannot be done conveniently.

The

The Senior Surgeon has been personally informed of these difficulties during his inspection of 16-7-1912, and he has been pleased to note the same facts in the Visitors' Book also. The cleaning of the latrines and drains, of the bed pans and urinals, sanitary pans in the latrines and similar work is properly the duty of a toti or a scavenger and not of the caste coolies or peons or waterman, who have to attend to their own legitimate duties and who abhor and refuse doing scavenging work of the bed-ridden patients in hospitals who are of all castes and creeds.

There is a female toti and a male toti sanctioned for the Chitaldrug Civil Hospital which is neither bigger nor more important than this, and four toties sanctioned for Kolar Gold Fields Hospital, and one toti each for the Dispensary for women and children at Chickaballapur and Kolar Gold Fields; but there is not even one sanctioned for the Kolar District Hospital.

Even in the District Hospital here, there is a latrine attached to each of the three wards, viz,- (i) Male ward with 6 beds, (ii) Female ward with 4 beds & (iii) Contagious ward with 2 beds; there are 4 sanitary pans in (i) & (ii) and 2 seats in No.(iii); besides these the length of the cement drains added in 1911-12 to be cleansed daily, is 1500 running feet nearly.

The local conditions are very peculiar in this District; the parayas or holeyars even does not do scavenging work anywhere in this district; only a few of the Nellore vodders who have come and settled undertake to touch and to remove human excretae and if they strike work there is none to do the work at all.

For 5 to 6 hours' work or so in the local Municipality, a scavenger (one of this class) is paid not less than Rs 7/- and the toti's services in the Hospital are almost constantly required during the 24 hours; besides, the Hospital toti is to help in post mortem examinations, removal of dead bodies &c., Toties in the Kolar Gold Fields Hospital are paid at 10 plus Re. 1/- per mensem, and in the dispensary for women and children

children there, Rs 9 plus Re. 1/-. The toti sanctioned for the District Lockup recently is paid Rs 8 per mensem and hence Rs 7/- put in for the scavenger of this hospital is very little considering that he is to remain all the 24 hours of the day on duty with no relief unless a second toti (preferably a female toti) is also given to relieve him.

ii. Female Cooly- There is only one on Rs 6 per mensem and she is expected to be on duty all the 24 hours of the day in the female ward, as well as in the out-patients buildings simultaneously, which is an impossible feat; if she is sick or on leave there is none to take her duty. When she is helping in the dressing of out-patient females in the out-patient rooms about 40 yards away from the wards of the female in-patients, there is no cooly at all to watch or attend on the bed-ridden female patients admitted into the wards; but if she is made to stay with such patients in the wards there is no female cooly to help the dressing, examination &c., of female patients in the out-patient rooms.

The only other female hand, viz- the relieving Midwife is absent for some 6 or 7 months of the year on relieving duty and when she is here, she may have to go to labour cases; even granted that the single female cooly is in the ward or out-patients on duty, she cannot be expected to remain awake or nurse a bed-ridden patient, foregoing her sleep & rest every day all the year round. In every institution where constant awaking and watching of serious cases of illness is required duty servants are appointed separately for day and night and they are made to relieve each other; there is no relieving hand here at all.

In the Kolar Gold Fields Hospital, besides a Matron and two Midwives, there are 4 ward coolies both male and female besides a number of other menials; even if there is a single bed-ridden patient in the single ward here, one additional cooly is at least required for the night to watch and nurse.

Even for the newly opened dispensary for women and children at Chickaballapur with only two beds, there are three female servants sanctioned, besides a toti, whereas for four beds and the out-patient dispensary in the District Head Quarter there is only one female and no toti; so a female cooly on Rs 6 is therefore very necessary in addition to the

only

only one existing.

iii. Surgery servants- There is one surgery cooly (sweeper) sanctioned and appointed for every L.F. Dispensary in this District, as well as elsewhere, for an average attendance of 25 out-patients and two beds (one male and one female;) the average of out-patients in the District Head Quarter Dispensary here is 90 to 100 or so; there is no surgery servant appointed to work in the male or female out-patient dressing room in the morning or in the evening; if the single male ward cooly is withdrawn for this purpose there is no other male servant to watch or attend to the wants of the male in-patients in the male ward or contagious wards, which are each of them far away from the out-patients rooms and from each other.

In the Chitaldrug and Shimoga Civil Hospitals, there is an extra cooly for helping in out patient work, and there is none here; there are two surgery servants, besides a number of other menials in the Kolar Gold Fields Hospital. So a dispensary cooly for the benefit of the out-patient is absolutely necessary.

iv. Dhoby- Even in the Chitaldrug Civil Hospital Dhoby is paid Rs 3 a month; Rs 2½ per month for this hospital is too small. Kolar is a railway station and is very near to Kolar Gold Fields; as regards the market value of the necessaries of life Kolar is nearly as bad as Kolar Gold Fields or Bangalore; hence the increase of a half rupee on this is not much.

"COPY"

J. Cormichael

Senior Surgeon, Mysore Government.
